

MAGSMARTERS

Intelligent Magnetic Construction Set For Brain Development

GUIDE BOOK

MAGSMARTERS

Intelligent Magnetic Construction Set For Brain Development

MAGSMARTERS THE HIGHEST FORM OF FUN
Always connect without rejection! Instant fun!

CREATIVE

Magsmarters helps children to make countless forms. They also promote the ability of children to create new forms and ideas.

MATHEMATICAL

Magsmarters supports children with geometric forms from mathematics such as Tetrahedron or Together police Eder. While the children play, they simultaneously acquire math skills.

SCIENTIFIC

Magsmarters basics inspire not only children but also adults. They help with learning and thereby to understand science concepts, which normally difficult be considered. Also Adhesive Chemical structures are hereby wonderfully illustrate and learn.

INNOVATIVE

Magsmarters Support children in extending their inventive skills by imaginative Assemble forms.

CONSTRUCTIVE

Magsmarters helps children, real structures: such as bridges, towers and other structures to create.

CONCLUSION

Magsmarters helps children to build various police Eder to elementary forms and magnets be understood from the theory.

STIMULATE

Magsmarters stimulates the left and right half of the brain. Promotes the use of both hands balanced development of the brain. Mag-smarters natural curiosity awakened in children and contributes to the self-confidence by building interesting and impressive forms to strengthen in a playful way.

AWARDS

Oppenheim Toy Portfolio Platinum Award in 2007

The Oppenheimer Toy Portfolio was founded in 1989 and is the only independent Review Institute for consumers. Here is the "OPPENHEIM TOY PORTFOLIO" published games which introduces and evaluates (an absolute Must for parents). In addition, awards annually to impressive Games awarded.

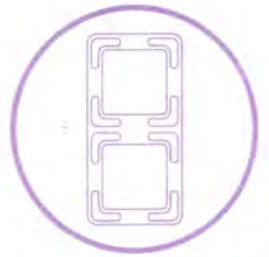

Best Toy For kids Award 2009

Winner of the BEST TOY FOR KIDS Award 2009 by ASTRA (American Professional trade association for toys).

BEST Toy For kids Award in 2010

Winner of the BEST TOY FOR KIDS 2010 award by ASTRA (American Professional trade association for toys).

HOW TO PILE UP MAGSMARTER

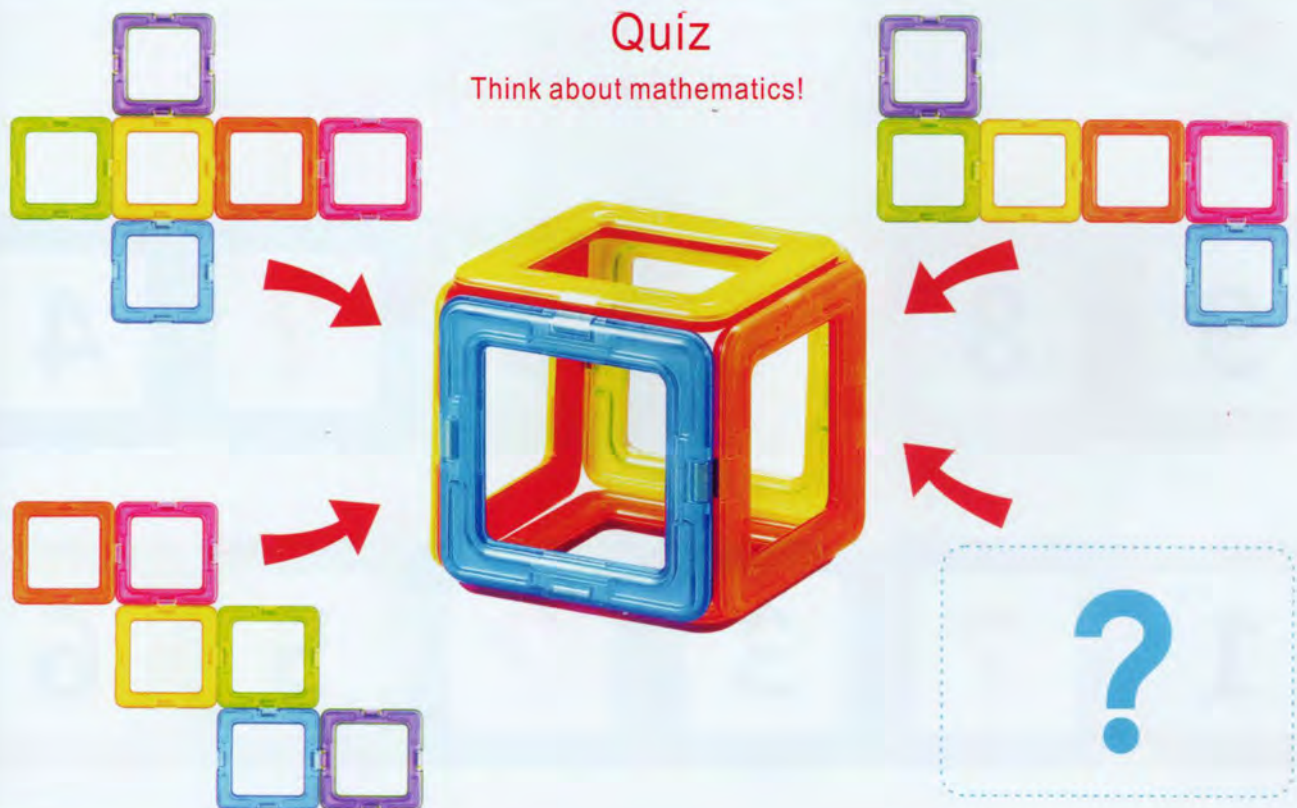

MAGSMARTERS

Intelligent Magnetic Construction Set For Brain Development

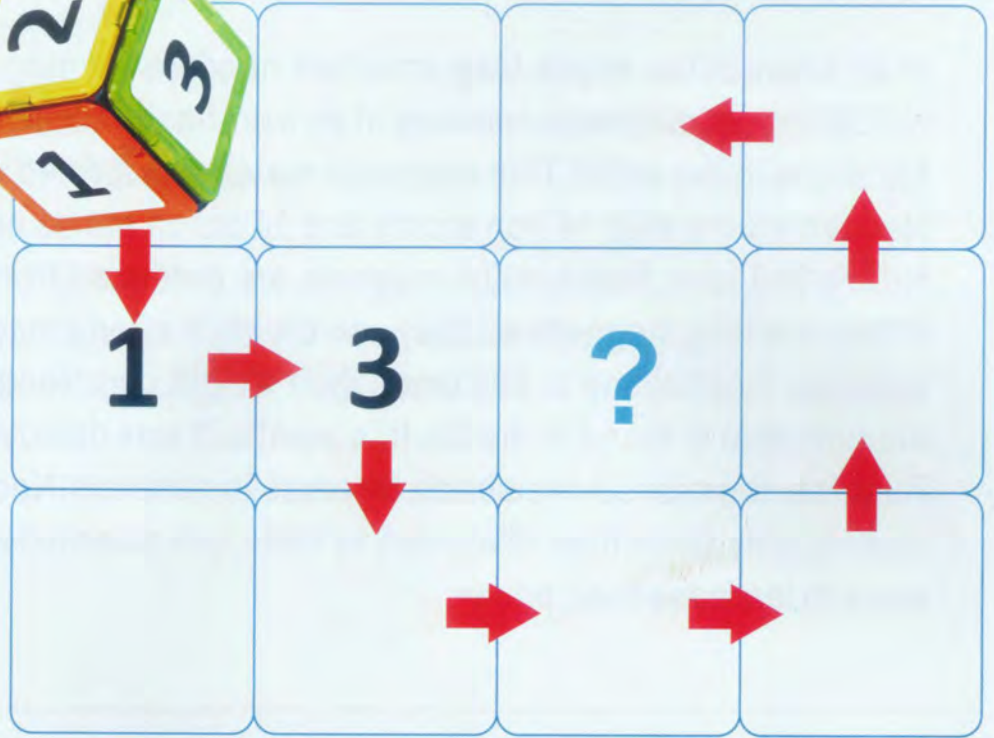

Magnet Facts

In all areas of the edges Mag-smarters neodymium magnets are embedded NEODYmium magnetic consists of an iron-based of the strongest magnetic Materials in the world. This magnetic material is formed when two Neodymatome with 14 iron atoms and 14 boron atoms and connect the $Nd_2Fe_{14}B$ form. Neodymium magnets are produced from these molecules and if they are fully magnetized, they can create a strong magnetic Attraction exercise that hold up to 600 times their weight can! Neodymium is a metallic element that is found in the Earth's mantle. It was discovered in 1885 by the Austrian chemist CA Weisbach. It comes in minerals. Neodymium magnets are looking only since their discovery in 1984, and scientists continue to use for ways to increase their power.

MAGSMARTERS

Intelligent Magnetic Construction Set For Brain Development

MAGSMARTERS

Intelligent Magnetic Construction Set For Brain Development

Magsmarters is the best 3-D toys for children's creativity and brain development education toys. Magsmarters are entertaining for all ages because of the amazing strength of the neodymium magnets. The educational benefits are the quick visual conception of what can be created and discovered with these equilateral shapes combined either simple or complicated models.

WARNING

**CHOKING HAZARD-Small parts
Not for children under 3 years**

WARNING: This product contains small magnets. Swallowed magnets can stick together across intestines causing serious infections and death. seek immediate medical attention if magnets are swallowed or inhaled.
